

## MEDICAL CHECK-UP PROCEDURE 2025

Please find below the main steps of the Medical Check-up procedure of the University of Debrecen. **Please read it carefully, follow the steps** and please make sure that you will bring all necessary documents with you for the registration.

We would like to call your attention to the fact that the vaccination and the obligatory medical check-ups are regulated by the Hungarian law and the University of Debrecen.

Furthermore, it is required to have medical tests carried out before the **medical insurance card** becomes valid.

If you are a student at a healthcare-related faculty, you are required to undergo regular medical examinations to confirm your health-related aptitude. Certain chronic or recurring conditions (e.g., infectious diseases) may interfere with patient care or safety and may be incompatible with medical training or practice.

Students from other faculties are also required to complete this process during the first year of their studies and, in some cases, at specified intervals.

Please note that students cannot register for the subsequent semester and cannot start their practice (block practice, 6th year practice) without an up-to date and official medical certification.

Official medical certifications can be provided only if the student has completed every part of the required test.

### STEP 1 BEFORE YOU ARRIVE TO HUNGARY

*Please bring the following documents with you. All should be provided in English:*

#### 1. Medical Certificate:

The required form can be downloaded from the following website: [edu.unideb.hu/medicalcheckup](http://edu.unideb.hu/medicalcheckup)

***This should be filled out, signed, and stamped by a registered doctor. You must present the document at registration.***

It includes information about your general health, immunisation, serology, blood and urine test, tuberculosis etc. **Please attach the required results as well.**

#### 2. Health Questionnaire:

The required form can be downloaded from the following website: [edu.unideb.hu/medicalcheckup](http://edu.unideb.hu/medicalcheckup)

***Please fill it out by yourself, print it and sign it. You must present the document at registration.***

In case you have any chronic diseases, please bring with you all your Hospital/Outpatient/Primary Care medical reports, discharge letters, outpatient letters, list of medications etc. in English.

#### 3. Childhood Vaccination Booklet or International Certificate of Vaccination

***You must present the document at registration.***

Missing examinations, investigations or vaccinations can/will be completed at the International Occupational Health Service/GP's Office of the University of Debrecen. Any additional cost incurred should be paid by the student.

UNIVERSITY of  
DEBRECEN

## STEP 2 AT REGISTRATION

1.

Please present in English

- Health Questionnaire filled and signed by you,
- Medical Certificate filled, stamped and signed by a registered doctor, with required results
- Childhood Vaccination Booklet or International Certificate of Vaccination

These documents will be forwarded to the Occupational Health Specialists (located in the GP's Office) of the University of Debrecen.

2.

The Coordinating Center for International Education will provide you with a **CHECK-LIST**, that contains the **exact time and date of your first appointment**.

## STEP 3 VISIT THE GP'S OFFICE

1.

On the given time and date you will need to **visit the Occupational Health Specialists at the GP's Office**

**The GP's Office is located** in the building of the Kossuth Lajos Dormitory:

Your first **appointment and any additional test (e.g. blood test)** will take place on the scheduled date and time.

## 2.

The nurse will give you a scheduled appointment for the physical examination. It will be added to your CHECK-LIST.

### STEP 4 ADDITIONAL EXAMINATIONS (IF NEEDED)

In justified cases, the Occupational Health Specialists of the UD may ask you to take additional tests and examinations (e.g. chest X-ray).

**Chest X-ray can be** taken in the CT Laboratory at the 2nd Department of Internal Medicine based on the given appointment.

**Stool culture test can be** done at the In Vitro Diagnostic Center any Monday to Wednesday between 8am and 12 am.

### STEP 5 RETURN TO GP'S OFFICE

On the scheduled appointment for the physical examination, you will need to return to the GP's Office to receive and discuss test and examination results with the Occupational Health Specialists.

**The Occupational Health Specialists can see you only after you have completed all the required tests, including a blood test, X-ray, and/or stool test.**

FOR ALL MEDICAL EXAMINATIONS PLEASE PRESENT YOUR VALID PASSPORT AND CHECK-LIST.

#### DURING YOUR STUDIES

You must take part in regular physical examinations and health check-ups with Occupational Health Specialists of the UD, which depends on the subject you study and you will be notified by the Coordinating Center for International Education.

#### **Special regulations:**

All required additional tests will be taken at the Clinical Departments of the University of Debrecen.

No other provider's medical test results will be accepted.

In case the cost of the examination has to be paid by the student, it must be paid in advance.

Charge for replacement of lost check list: 5,000 HUF. Charge for missed scheduled appointment: 5,000 HUF/new appointment.

**Clinical practices can only be started with a valid medical clearance.**
